

## A Prayer for the 144,000 World Peace Prayers.

4.6 billion years since the birth of Mother Earth,  
through various natural environments

We have been made to live

However, as beings evolved, humans  
started to use fire and to waste water

And fights and strife mushroomed among a human race.

Now, we repent for our mistakes  
and apologize.

A future, to help each other, to share with others,  
to 10, 100 and 1000 years

for children who passes life to next generation

for Japan full of love and peace

and for the future of the planet without fight.

We pray, and swear
